

SEARCHING MINING ANNUAL REVIEW 2002

If you are running Adobe Acrobat 4® with the Acrobat Search® plug-in, then you can search all of the articles in Mining Annual Review 2000 at the same time. If you do not have the search plug-in, re-install Adobe Acrobat 4® from this CD (CD:\Acrobat\Setup.exe). Click on the Search button on the toolbar; this will bring up the search dialog box. To search for an individual word, enter it and click search. If you wish to search for more than one word, enter them using standard boolean separators such as 'and' and 'or'. To search for strings of words, group them using quotation marks (" ").

The results of your search will be displayed in order of relevance (measured by the number of times that the search words appear). To view an article, double click on its listing. The search words will be highlighted on the page. To move on to other hits, use the next or previous highlight button on the toolbar, or to look at the search results again, click search results.

Operating Instructions

Navigation

Choose the section that you wish to view by clicking on it (Country, Commodity etc) and then click on the name of the article that you wish to view.

To return to the contents pages at any time, click on the bookmark list on the left hand side of the screen.

Advertisements

By clicking on an advertisement, you will be linked to the advertiser's website (if you have access to the internet).

Authors

Clicking on an author's name will take you to a short biography/contact details of the author.

Printing

Please note that this CD has been laid out in A4 format, users may need to click "fit to page" when printing to fit on other sized paper.
